Smart Pro
Vehicle Key Programmer

The next generation of an OBD vehicle key programmer from Advanced Diagnostics

- Hybrid OBD programmer; pay-as-you-go, unlimited tokens, and/or purchase software

- Provides fast, easy and intuitive programming via the graphical user interface

- Software driven by Info Quest*, the Advanced Diagnostics online key programming database with information for over 5000 vehicles

- Designed and manufactured in the UK

Info Quest, by Advanced Diagnostics is constantly updated to provide the latest vehicle applications.

Smart Pro
Notable Features

- No dongles or smartcard required

- No Software dependencies

- Hyundai / Kia ADS 190SD and Nissan ADS 198SD included FREE with UTP or with token use

- Battery provides 2hrs stand-alone use (chargeable via vehicle or main connection)

- Download software updates via WiFi

SMART Pro™   Automotive

3

Smart Pro
Programming Made Easy

- Plug & Play; connect Smart Pro with the master OBD Cable to the vehicle

- Select a manufacturer, make, and model using the touch screen

- Click the green connection button to establish vehicle communication

- Once communication has been established; select a function and follow the screen prompts and procedures.

SMART Pro™ Automotive
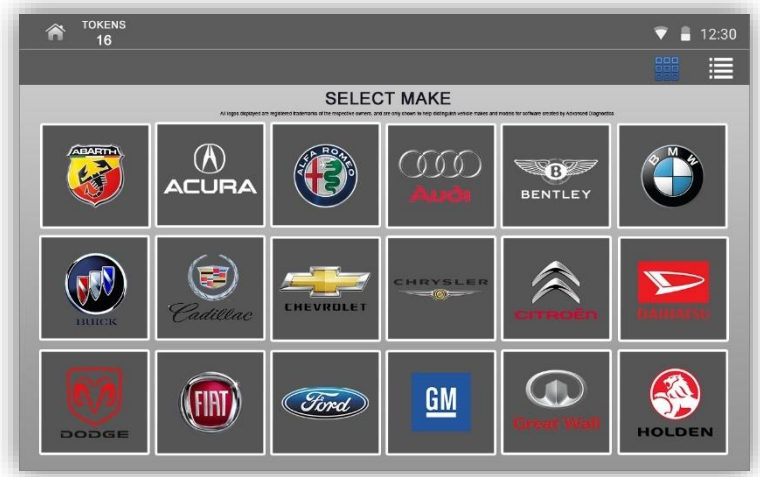

4

Smart Pro
Fast Programming Procedures

- Powerful quad core processor

- One step key and remote programming and pincode reading for most vehicle makes, models and years

- Quick WIFi software updates

- Read and clear fault codes (manufacturer dependent)

- View images of select vehicles, OBD port locations, information

- View remote procedures, tips and hints

Smart Pro
Features

- Customize interface to user preferences

- 10.1" (256.5 mm) color LCD touch screen guides users step-by-step through functions and procedures
